

## What is the Zeen?

The Zeen is a revolutionary multi-purpose mobility device designed to empower you to stand up from sitting, walk safely without the fear of falling, and sit and rest comfortably when you want. Zeen is for those who want a healthier, active lifestyle and have a strong desire to maintain or regain their mobility.

Unlike traditional wheelchairs and walkers, Zeen's motor-free technology lifts 75% of your body weight, raising you from a seated position to standing. Fully supported through your hips and buttocks, you can safely walk upright with the option of having your hands free. When resting, you can sit at barstool height to comfortably interact with family and friends at eye-level. Zeen offers the quality of life and dignity you've been waiting for!

## Is the Zeen right for me?

- ☐ Are you motivated and determined to regain or maintain your mobility or movement?
- ☐ Do you have moderate grip strength in at least one hand?
- ☐ Do you find it difficult to stand up from a seated position?
- ☐ Have you limited walking/standing due to fear of falling, strength, balance, or endurance challenges?
- ☐ Are you able to learn a new device on your own, or do you have someone who could assist you?

## Health benefits associated with standing and weight bearing

- Improves bone & joint integrity, circulation, leg strength, and range of motion
- Strengthens cardiovascular and digestive systems
- Decreases risk of heart disease, diabetes, lower back pain, weight gain, and pressure sores
- Improves cognition, alertness, mood, sleep quality, and overall mental wellness
- Increases energy level, balance, and coordination

**Sit down when you need to,  
stand tall when you want to,  
and go wherever life takes you!**

**sit. stand. go**

**Zeen by Exokinetics, HK.**
